

Priya Raman
Senior Backend Engineer — Bengaluru, India
priya.raman@example.com | github.com/example

EXPERIENCE

Staff Engineer, Northwind Logistics (2021 - present)

Led the migration of a monolithic Rails billing service to Node.js and

PostgreSQL, cutting p99 invoice latency from 2.4s to 310ms.

Designed the multi-tenant permissions model now used across twelve services.

Backend Engineer, Kestrel Analytics (2018 - 2021)

Built the streaming ingestion pipeline handling 40k events per second.

Introduced contract testing, which cut integration failures by roughly half.

SKILLS

TypeScript, Node.js, Express, PostgreSQL, Redis, Docker, AWS, Terraform

EDUCATION

B.E. Computer Science, Visvesvaraya Technological University, 2018
